THE TRANSFORMATION OF CIOs: FROM BUSINESS ENABLERS TO GROWTH ACCELERATORS

POST EVENT REPORT

bigcioshow.com

SUMMARY

The 12th edition of the Big CIO Show, supported by NITI Aayog and powered by Intel Xeon, held in Bengaluru, witnessed the convergence of influential industry leaders who shared their knowledge and experience with the participants. The event provided valuable insights and practical strategies to help attendees stay ahead in the rapidly evolving technology landscape. It was graced by HH Yaduveer Krishnadatta Chamaraja Wadiya, the Maharaja of Mysore, who served as the Chief Guest of Honor and lit the ceremonial lamp to mark the commencement of the Big CIO Show.

The prime attraction of the event was the Big CIO Awards, which honored top 100 Leaders & Innovators, and celebrated the best and brightest minds in the tech industry. One of the highlights of the event was the official launch of the Digital Acceleration & Transformation Expo (DATE), a forthcoming event scheduled to take place in New Delhi on November 23 & 24, 2023, that consists of 10 co-located events and is expected to attract over 10,000 business visitors. The show culminated with the groundbreaking product launch of the highly anticipated unveiling of Intel's new Xeon technology.

Address by the Chief Guest

HH YADUVEER KRISHNADATTA CHAMARAJA WADIYAR

MAHARAJA OF MYSORE

HH Yaduveer Krishnadatta Chamaraja Wadiyar addressed the Audience talking about how he wants to keep the heritage, culture, and charm but also marrying it with modern facilities that are required going forward. He also stated how cities like Mysore, Bengaluru and other cities which are overburdened in IT infrastructure can be supported by bringing in an economic driver in India.

> The key focus, or what we (Mysore Heritage of Innovation and Entrepreneurship) want, is to be the cyber security beacon in India and also bring in an economic driver for Mysore so that this IT infrastructure, which is already overburdened in Bengaluru and in many cities, can be supported. The overall good that it brings for empowering the economy can be brought to cities like Mysore." He added, "We can really grow Mysore by keeping the heritage, culture, and charm but also marrying it with modern facilities that are required going forward. This was the motive behind our idea, and we are very happy to be here today."

Beyond DX: Driving Innovation and Transformation

Panel Discussion

The panel discussion revolved around how critical digital transformation is. The panel discussed the future of bots and conversational AI referring if ChatGPT is a game changer.

Further, the discussion incorporated on what potential benefits can businesses realize by exploring and incorporating the Metaverse into their digital transformation efforts, on how green and low-carbon technologies contribute to India's climate goals.

PANELISTS:

KRISHNAN VENKATESWARAN
Chief Digital & Information Officer, Titan Company

ASHUTOSH DABRAL
Chief product & Technology Officer, Tata CLiQ

ABHINAV SRIVASTAVA
Chief Information Officer & Head of shared IT Services, Daimler India Commercial Vehicles

AMIT KUMAR VERMA
Chief Technology Officer, Practo

ALEXEY SIDOROV
Data Management Director, Chief Evangel

MODERATOR:

SANJAY MOHAN
Group Chief Technology Officer, MakeMyTrip

Ramprakash Ramamoorthy
Director – AI research, ManageEngine – A division of Zoho corporation

AI Enhanced IT Management – The Future

Ramprakash Ramamoorthy started off with some actionable insights about getting AI into IT. He further spoke about how IT environment thresholds can be made elastic. He also shared his key insights on how AI and ML can help you in the IT operations, AI-based security, and monitoring platform. How to embrace the new age technology into IT workflow.

TECH TALK

"Overall I see the future of AI in IT is moving, from what was descriptive is now predictive."

TECH TALK

Today we feel immense pride, many of the leading products that the world runs on were developed at the Intel India site".

Future Forward: Digitally Transformed India

Vikram Chauhan kickstarted his session by talking about the commitment that Intel has to India. He also spoke about what Intel in planning in terms of the technology roadmap and the next steps they are implementing. He also spoke about the cycle of innovations and how important it is for organizations to be challenged by this. He further summed up SGX stating that it protects your data, irrespective of what state it is in.
