Dr. Amitabh Rajan

Chairman, Services Board
Reserve Bank of India

RBI OPENING ADDRESS

The Future of Banking in the Age of Digital Disruption

Dr. Amitabh Rajan kickstarted his session by giving an overview of the future of banking in the age of digital disruptions and metapolicy. In his keynote, he shared his insights on 4 key topics namely the anatomy of a fiscal crisis in markets; conceptualising disruptive innovations; next steps in banking: a meta-policy view and institutional foundations of strength. He concluded his session by explaining how India is going to be benefited from Digital assets and digital currencies in the future.

> ***Market behaves in a disruptive manner it is not just technology which is displayed. So better understanding of the financial situation markets has to be taken.***

Sumeet Puri

Chief Technology Solutions
Officer, Solace Corporation

TECH TALK

Enabling the event-driven Digital Banking

He discussed real-time inventory situations, such as the ability to host flash sales, kerb sales delivery, and efficiency, which require real-time inventory with order and inventory events. He emphasized on how customer loyalty coupons must be real-time, stores must be linked with event SAP e-commerce, and supply chains must be made real-time. He also discussed how business transactions are becoming more digital, how to increase client loyalty, and how the event mesh concept came to be.

> ***The approach of leveraging data on a product in real time is actually saving lives.***

DIGITAL BANKING PANEL DISCUSSION

Going Digital: Banking on Innovation, Sustainability & Technology

The panel discussed the responsibility toward SDG (Sustainability Development Goal), set by the United Nations and how corporates can support this agenda, by developing new business models. They explored the future of banking in light of the rise of new technologies such as Metaverse, as well as how Blockchain is being used to combat fraud with use cases in digital banking.

Panellists:

Mahesh Ramamoorthy
CIO, Yes Bank

Amit Saxena
CTO, RBI Innovation Hub

Prasanna Lohar
Chief Innovation Officer,
DCB Bank

Moderator:

Dheepak Rajoo
SVP & Head of IT,
RBL Bank

DIGITAL CX PANEL DISCUSSION

Driving Scale & Growth in BFSI segment with Digital CX

The panel's opening segment focused on journey mapping, insurance, customer experience, and ROI. Discussion topics included front-end use cases, customer journeys, and ROI journey mapping, and the importance of design thinking in providing the best possible customer experience. They talked about how AI and Big Data analytics can be leveraged to gain deep insights to understand customers better, while stressing on the aspect of not using AI-enabled solutions carelessly.

Panellists:

Prashant Thakkar
COOT, LIC Mutual Fund Asset Management Limited

Vikram Arora
CIO, Future Generali India, Insurance Company

Deepak Mittal
VP - Technology, Head of CRM Applications, ICICI Lombard General Insurance

Moderator:

Nandkishore Purohit
CDTO, IIFL Securities

Anila Rao

Vice President, APAC, Haptik

TECH TALK

Unlocking the power of WhatsApp Commerce for Financial Services

She spoke on WhatsApp commerce and how firms are utilising it to increase customer engagement. She touched on how businesses can use WhatsApp to generate revenue by giving customers a great, personalised experience by leveraging chat bots to keep customers engaged as well as generate revenue.

> ***Generate revenue through your chatbot.***

TECH TALK

Colocation emerges as Interconnection Hub for Hybrid Landscape

He spoke about WW- IMDC vision of sustainability, and the global presence of its data centers. He also discussed how colocation service providers with facilities and customers in multiple geographic locations can support a robust ecosystem of partners, and offer agility & scalability for customers' private infrastructures in large, highly connected data center campuses.

> ***In 4 to 5 years we can see half of the data centers in the world present in Asia.***

Chandan Gupta

Vertical Head – Data Center Services, WebWerks

CLOUD PANEL DISCUSSION

Cloud Ahead: Move beyond Legacy

The panelists discussed about integrated modern technologies which are supporting the evolving infrastructure. The discussion centered on exposing data and services through APIS and micro services to enable faster and easier access to data. They shed light on CPaaS and CCaaS and why we need cloud data protection systems while leveraging cloud as an analytics platform for real-time customer insights & reporting.

Panellists:

Pinak Chakraborthy
CIO, Airtel Payments Bank

Rishabh Garg
CTO, U GRO Capital

Naveen Mangle
CTO, Fusion Microfinance

Somayajula Shekar Rao
Head Sales, Strategic Accounts – EFLV India, TATA Communications Limited

Moderator:

Shashank Saxena

TECH TALK

AIOps for IT and DevOps

Srinivasa introduced AI, AI techniques and talked about subset of ML which makes the computation of multilayer neutral networks feasible and discussed where these technologies can be applied and how AI & ML can be applied to troubleshoot the problems.

> *AI can be applied to troubleshoot the problems."*

Mohan Bhat
Co-founder & CSO, Accops

TECH TALK

Secure Digital Workspace for Future Banking

Mohan discussed the future of banking and elaborated on the various aspects of digital banking, perimeter-less banking, employee resignation, cyber-attacks, zero trust, biometrics, and scalability.

> *Digital banking is going to grow."*

Harshwardhan Mittal

Chief Technology Officer, Yubi (Formerly CredAvenue)

TECH TALK

Building Infrastructure to Power Debt Market through Technology

Harshwardhan discussed why it is critical to build infrastructure for India's debt market, as well as how Yubi assists banks in structuring transactions and finding the right buyer for the transaction.

> ***Banks lack the infrastructure to discover, to evaluate and to monitor lower rated entities which is resulting into the lack of available credit to a large part of the economy, it has a direct impact on the growth of our country.***

CYBERSECURITY PANEL DISCUSSION

Combating Cybercrimes: Is offense the best Defense

The panellists talked about customer cyber security education, multi-factor authentication, and a multi-layered defence strategy. They discussed privileged access management and network defences, as well as how they can extend their defences to customers as part of the customer care package.

Panellists:

Pawan Chawla
