WAIS Overview

The 41st global edition of World AI Show took place in Dubai, gathering leading global experts in AI and emerging technologies. This influential event explored the immense potential of these technologies and delved into discussions on scaling AI adoption.

The show featured captivating keynotes, tech-talks, panel discussions, and innovative technologies. Attendees gained valuable insights into the latest advancements in AI that will shape our future.

Show at a Glance

1000+ C-Suite Leaders

116 Investors

53 Speakers

40 Media Partners

26 Exhibitors

23 Sessions

Attendee Insights

TOP 5 ATTENDEE PROFILES

- 39% CIOs / CTOs / other C-level IT
- 29% Heads of IT
- 17% IT Directors
- 15% General Managers - IT

TOP SOLUTIONS IN DEMAND

- Robotic Process Automation (RPA) / Intelligent Automation
- Machine Learning Applications / ML Platforms
- Business Intelligence & Analytics Twinning
- Digital Transformation Solutions
- Conversational AI & Chatbots
- Smart Robotics
- Speech Recognition / Facial Recognition / Biometrics Solutions

TOP ATTENDEE SECTORS

Banking | Manufacturing | Telecom | Automotive | Insurance | Retail | Government | Architecture

Themes

- Digital Compass of AI in UAE
- Conversational AI
- Keeping it Ethical in AI
- Redefining CX through AI
- Unlocking the Potential of Robotic Process Automation
- Digital Transformation through AI skills
- Upgrade the Healthcare sector with the help of AI
- Exploring AI in Metaverse
- AI to Transform Cybersecurity and Secure Critical Infrastructure
- Leveraging Cloud with AI
- Fusion of AI and Data
- ChatGPT & Generative AI

What an event by World AI Show!

With Darktrace as the official AI Cybersecurity partner, proud to have been a speaker on how AI helps deliver cyber resilience .

#CyberAI #Darktrace #worldaishow

Tom Rutkowski, PhD, MBA • 3rd+
Explainable and Responsible Artificial Intelligence in Finance
14h •

It was great to attend the World AI Show in Dubai. I was thrilled to see Explainable and Responsible AI discussed as a necessity to deploy machine learning models (thank you Sid Ahmed B., and Anas Laban). This wasn't that obvious a few years back when I first started my research on XAI and then joined Kinetix Trading Solutions to deploy our Explainable AI platform built for Capital Markets and Banking. Combining XAI with Generative AI and Human-in-the-loop workflows can transform organizations to become truly AI-driven without the risk of using black-box solutions.

#xai #generativeai #llm #dubai #difc #worldaishow

#Day2 at the World AI Show in #Dubai. 11:30am - my favorite subject in #AI: Unlock the true benefits of AI in the field of Customer Experience.

The speakers were Kostas Georgiadis from voiceweb, a partner of Phonologies (India), Sven Herzing and Stephen Kruger among others. The session was moderated by Daniela Rossi.

The biggest take away for a #CustomerJourney - AI must work with a #HumanApproach to improve accuracy, in order for #CustomerExperience to get better.

Enterprises accelerating AI Innovation in the

Tuesday, June 6th, 2023 - ACN Newswire Pte Ltd

trescon

Held under the Patronage of The Private Office of Sheikh Saeed Bin Ahmed Al Maktoum, the 41stGlobal edition of World AI Show is set to take place on 7-8 June 2023 at the Jumeirah Emirates Towers in Dubai. The event will bring together investors, global AI leaders, government officials, and industry experts to explore the latest trends, applications, and solutions in AI.

DUBAI, June 1, 2023 - (ACN Newswire) - The rapid advancement in the field of Artificial Intelligence continues to create a seismic impact on the technological landscape especially in the Middle East and North Africa region. With global big tech players vying for an advantage in the market, new innovators continue to weave their magic in the field.

In a recent PWC report, the AI industry could contribute up to US$ 15.7 trillion to the global economy in 2030. While the worl all over is slowly integrating AI into their ecosystem, the report suggests a bright future for the MENA region. The repo estimates that by 2030 the region will accrue 2per cent of the total global benefits equivalent to US$ 320 billion. The annu growth is estimated to be between 20-34 per cent per year.

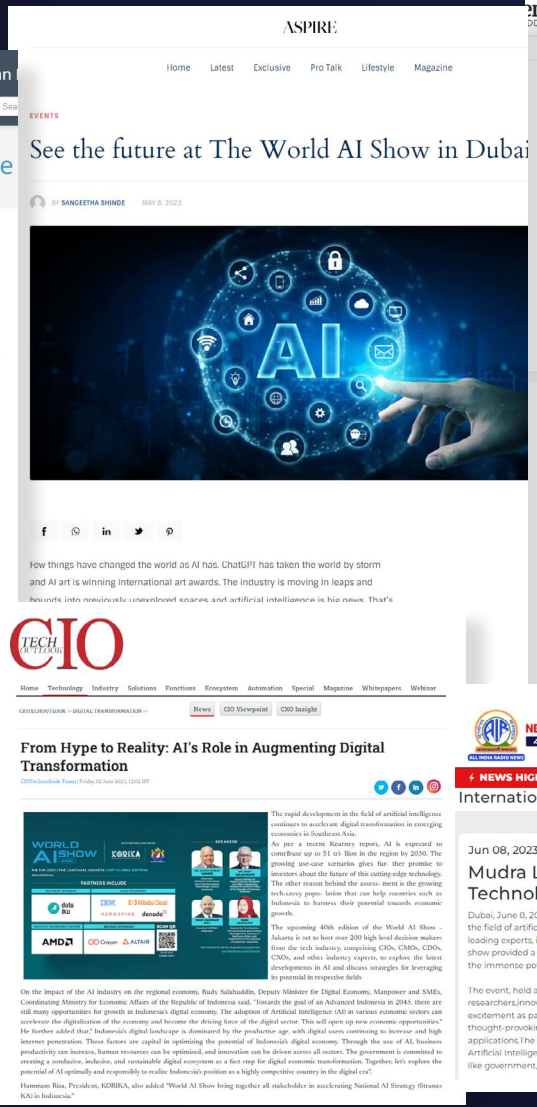

With AI having a potential to disrupt industries and create new opportunities, the region has embraced the winds of chang Enterprises in the UAE play a central role as a part of their strategic vision in becoming a global innovation and technolog leader. Initiatives such as the *Dubai AI Ethics Board* and *AI Lab* ensure the ethical use of AI while helping innovators developing state-of-the-art technology.

The MENA edition of World AI Show will play a crucial role in shaping the future of AI in the region by bringing togeth thought leaders and experts from various industries to share insights and best practices. Attendees will also have th opportunity to explore the latest AI solutions and technologies at the event. The show will also provide a platform f discussions on the role of government regulations in shaping the future of AI.

B global edition of the World AI Show is set to take place from 7-8 June 2023 in the UAE at the Jumeirah Emirates Towers in Dubai.

Organized by global business events and consulting firm Trescon, this installment of the World AI Show, held under the patronage of the private office of Sheikh Saeed Bin Ahmed Al Maktoum, will bring together investors, global AI leaders, government officials, and industry experts to explore the latest trends, applications, and solutions in AI.

"The World AI Show - Dubai is a unique platform that will bring together global AI experts, government officials, and industry leaders to discuss the latest trends, challenges, and opportunities in AI," said Naveen Bharadwaj, Group CEO, Trescon, in a statement. "We are excited to host this event in Dubai, which is quickly becoming a hub for AI innovation and growth."

From Hype to Reality: AI's Role in Augmenting Digital Transformation

The rapid development in the field of artificial intelligence continues to accelerate digital transformation in emerging economies in Southeast Asia.

As per a recent Kearney report, AI is expected to contribute up to $1 tri- llion in the region by 2030. The growing use-case scenarios gives fur- ther promise to investors about the future of this cutting-edge technology. The other reason behind the assess- ment is the growing tech-savvy popu- lation that can help countries such as Indonesia to harness their potential towards economic growth.

The upcoming 40th edition of the World AI Show - Jakarta is set to host over 200 high level decision makers from the tech industry, comprising CIOs, CMOs, CDOs, CNOs, and other industry experts, to explore the latest developments in AI and discuss strategies for leveraging its potential in respective fields

On the impact of the AI industry on the regional economy, Rudy Salahuddin, Deputy Minister for Digital Economy, Manpower and SMEs, Coordinating Ministry for Economic Affairs of the Republic of Indonesia said, "Towards the goal of an Advanced Indonesia in 2045, there are still many opportunities for growth in Indonesia's digital economy. The adoption of Artificial Intelligence (AI) in various economic sectors can accelerate the digitalization of the economy and become the driving force of the digital sector. This will open up new economic opportunities." He further added that," Indonesia's digital landscape is dominated by the productive age, with digital users continuing to increase and high internet penetration. These factors are capital in optimizing the potential of Indonesia's digital economy. Through the use of AI, business productivity can increase, human resources can be optimised, and innovation can be driven across all sectors. The government is committed to creating a conducive, inclusive, and sustainable digital ecosystem as a fast step for digital economic transformation. Together, let's explore the potential of AI optimally and responsibly to realize Indonesia's position as a highly competitive country in the digital era".

Hammam Riza, President, KORIKA, also added "World AI Show bring together all stakeholder in accelerating National AI Strategy (Stranas KA) in Indonesia."

Governments and Enterprises in the Middle East Join Forces to Drive AI Innovation at World AI Show

Published: May 19, 2023 at 12:08 a.m. ET

The MarketWatch News Department was not involved in the creation of this content.

May 19, 2023 (eTrendystocks via Comtex) -- Held under the Patronage of The Private Office of Sheikh Saeed Bin Ahmed Al Maktoum, the 41st Global edition of World AI Show is set to take place on 7-8 June 2023 at the Jumeirah Emirates Towers in Dubai. The event will bring together investors, global AI leaders, government officials, and industry experts to explore the latest trends, applications, and solutions in AI.

Bangalore, India, A recent report suggests that the global AI market is expected to hit USD 733.7 billion by 2027, growing at a CAGR of 42.2%. Both the government and enterprises in the MENA region are actively investing in AI technologies to boost economic growth, improve public services, and enhance business operations. Meanwhile, the AI race between tech giants like Microsoft and Google is intensifying with increased investment in AI research and development.

Dubai's government is promoting the adoption of AI technologies as part of its strategic vision to become a global innovation and technology leader. Initiatives such as the Dubai AI Ethics Board have been launched to ensure ethical use of AI, while heavy investment in AI research and development is also underway.

Few things have changed the world as AI has. ChatGPT has taken the world by storm and AI art is winning international art awards. The industry is moving in leaps and bounds into previously unexplored spaces and artificial intelligence is big news. That's why this event is worth attending. The World AI Show in Dubai brings together some of the biggest and brightest names in this rapidly evolving landscape, and how it impacts life in the UAE. It promises to bring together, as part of a world tour, pre-qualified CIOs, CEOs, Heads of AI, heads of innovation and globally renowned AI specialists from the industry in a select gathering. The show will bring together cutting -edge keynotes, enterprise use-case demonstrations, panel sessions and tech talks that will bring to light the latest challenges and developments in the sector. Offering visitors a chance to engage with the best and brightest in the field and explore the relevance of AI and its impact on other industries.

Venue: Jumeirah Emirates Towers Hotel
