Notable Quotes

As the world continues to shift towards AI centricity, the World AI Show provides a global forum for thought leaders and innovators within the AI industry. They come together and collaborate, share knowledge, and explore the latest cutting-edge technologies in AI.

Christophe Hubert
VP of Engineering,
EdenFarm

"Towards an Advanced Indonesia in 2045, AI-driven growth opportunities await in the digital economy. With high internet penetration and a rising number of digital users, AI adoption can unlock economic potential, boosting productivity, optimizing resources, and fostering innovation. The government is dedicated to creating a conducive, inclusive, and sustainable digital ecosystem for rapid digital transformation

Dr. Rudy Salahuddin
Deputy Minister for Digital Economy, Manpower and SMEs, Ministry for Economic Affairs

The merging of Artificial Intelligence (AI) with cybersecurity initiatives represent an interesting trend and as one of the top priorities for enterprises in 2023 and beyond.

Andang Nugroho
President, ISC2 Jakarta Chapter

We proud to have Irvan Bastian Arief, PhD our esteemed Vice President of Data Science and Machine Learning at tiket.com, for his exceptional session at the World AI Show Conference 2023.

He shared valuable insights on AI practices in the travel industry and emphasized the collaborative potential of human-AI synergy, reminding us that "AI will not replace jobs. Instead, a person using AI will replace a person without AI."

We extend a big thank you to Trescon APAC for the opportunity to showcase our expertise and be part of this successful event!

We are at the World AI Show in Jakarta, Indonesia! 👋🇮🇩
AI Innovators from across the world have gathered in Jakarta for the World AI Show, marking the epicenter of #AI advancements, and we are very excited to be a part of it.

This event is a hub of AI expertise, where we had the opportunity to engage with top industry professionals and thought leaders.

With a strong focus on business and thought leadership, the World AI Show provided valuable insights into the latest AI trends and their impact on various sectors. Several key themes emerged as focal points of discussion, such as:

👉 Conversational AI/ Chatbots
👉 Digital transformation with AI
👉 AI in banking
👉 Generative AI

These themes reflect the ever-growing importance of AI in various industries and provide valuable insights into the possibilities and opportunities it presents.

We want to express our gratitude to the organizers for putting together such an insightful and impactful event. The World AI Show has enabled us to have meaningful conversations about the potential of AI and its impact on businesses.

From Hype to Reality: AI's Role in Augmenting Digital Transformation

Tuesday, June 6th, 2023 - ACN Newswire Pte Ltd

trescon

"Experience the future of AI and Digital Transformation at the 40th Global Edition of Trescon's World AI Show on June 7-8, 2023, at The Langham, Jakarta. This event will attract some of the brightest minds in the field. Attendees will have a unique opportunity to gain valuable insights and solutions to create transformative disruptions in sectors of strategic relevance. The show is all set to deliver valuable knowledge and best practices to help businesses stay along with the forefront of Indonesia's rapidly evolving tech landscape."

JAKARTA, Indonesia, June 2, 2023 - (ACN Newswire) - The rapid development in the field of artificial intelligence continues to accelerate digital transformation in emerging economies in Southeast Asia.

As per a recent Kearney report, AI is expected to contribute up to $1 trillion in the region by 2030. The growing use-case scenarios gives further promise to investors about the future of this cutting-edge technology. The other reason behind the assessment is the growing tech-savvy population that can help countries such as Indonesia to harness their potential towards economic growth.

The upcoming 40th edition of the World AI Show - Jakarta is set to host over 200 high-level decision makers from the tech industry, comprising CIOs, CMOs, CDOs, CXOs, and other industry experts, to explore the latest developments in AI and discuss strategies for leveraging its potential in respective fields.

On the impact of the AI industry on the regional economy, Rudy Salahuddin, Deputy Minister for Digital Economy, Manpower and SMEs, Coordinating Ministry for Economic Affairs of the Republic of Indonesia said, "Towards the goal of an Advanced Indonesia in 2045, there are still many opportunities for growth in Indonesia's digital economy. The adoption of Artificial Intelligence (AI) in various economic sectors can accelerate the digitalization of the economy and become the driving force of the digital sector. This will open up new economic opportunities." He further added that," Indonesia's digital landscape is dominated by the productive age, with digital users continuing to increase and high internet penetration. These factors are capital in optimizing the potential of Indonesia's digital economy. Through the use of AI, business productivity can increase, human resources can be optimized, and innovation can be driven across all sectors. The government is committed to creating a conducive, inclusive, and sustainable digital ecosystem as a fast step for digital economic transformation. Together, let's explore the potential of AI optimally and responsibly to realize Indonesia's position as a highly competitive country in the digital era".

Hammam Riza, President, KORIKA, also added "World AI Show bring together all stakeholder in accelerating National AI Strategy (Stranas KA) in Indonesia."

Arsjad Rasjid, Chairman, Indonesia Chamber of Commerce and Industry (Kadin Indonesia) expressed his excitement about being a part of the World AI Show, Jakarta. About the event he adds,_"We are thrilled to be a part of the World AI Show. This platform signifies an important juncture in our shared digital future. By fostering collaboration and innovation, we aim to spearhead Indonesia's dynamic role in shaping AI's global frontier. Together, we can transform opportunities into realities, promoting growth and prosperity for our businesses and our nation."
