The Most Successful AI Event of South East Asia

The World AI Show Indonesia once again brought together influential leaders in AI, data science, and digital innovation. With **45 global editions** and **over 30,000 participants** across **10+ countries**, the Indonesia edition continued its role as a key driver of AI adoption and industry transformation.

The World AI Show Indonesia united **government leaders, enterprise tech decision-makers, AI experts, investors, and startups** from across South East Asia to explore advancements in generative AI, machine learning, and intelligent automation. The event featured **visionary keynotes, panel discussions, pitch competitions, and curated networking opportunities**, all aimed at shaping the future of AI in the region.

Creating High-Value Connections at World AI Show with Smart Matchmaking

At World AI Show, we don't just run events — we build ecosystems. This year, our AI-driven matchmaking system delivered real impact by **connecting the right people** at the perfect moment.

We had the honor of hosting tech leaders, innovators, and change-makers, and our platform made sure every meeting led to action, alignment, and lasting value.

Testimonials

KORIKA has been very fortunate to partner with Trescon in nurturing our AI ecosystem. As part of the Trescon International Advisory Board, I'm excited to continue our AI journey in Indonesia together.

Prof. Hammam Riza
President, KORIKA

We're happy to meet industry leaders and new enterprises here. Southeast Asia is a huge, competitive market for AI solutions, and we don't want to miss any opportunity to join future events with Trescon.

Ghendis Aniesti Kayira
Indonesia Marketing Lead,
Alibaba Cloud

It's great to see the massive turnout and connect directly with decision-makers. Events like World AI Show allow us to understand customer pain points firsthand and highlight how critical AI-driven cybersecurity solutions are in today's disruptive environment.

Shijas M.
Chief Executive Officer,
TechensGlobal

Participating at World AI Show has been fantastic. We've connected with clients who discovered solutions they've been searching for years. AI isn't just about entertainment; it's about providing real solutions to real business challenges, and that's exactly what we're delivering here.

Budi Rachman
Global IFRS Practice Lead

World AI Show in Jakarta has been an excellent opportunity to connect and showcase our customer engagement and data management solutions. The event is exceptionally organized—one of the best I've attended—and it's helping us reach new opportunities in Indonesia and beyond.

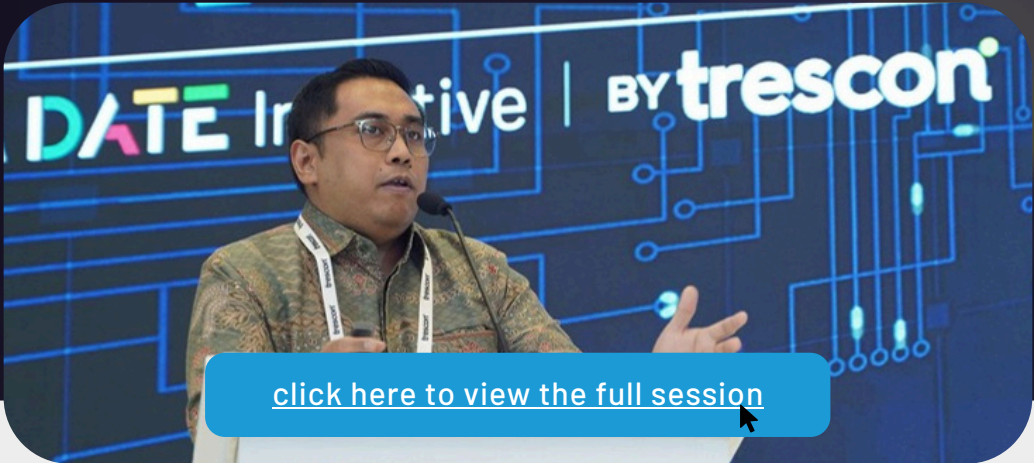

Danny Crayton
Advisor, Loyaltytics

It's our first time at World AI Show, and it's been amazing. We've had powerful conversations with decision-makers, showcased our AI innovations like our AI robot, and witnessed just how fast the AI ecosystem is growing in Indonesia. Events like this are essential to keep those conversations going.

Maria Adela Chandra
Marketing Director, Asix
