POST-EVENT REPORT

WAIS OVERVIEW

The 43rd Global Edition of the World AI Show in Mumbai brought together AI leaders and experts from across the globe to dive into the evolving challenges and opportunities within the AI landscape. Captivating sessions and thought-provoking discussions explored the latest trends, real-world solutions, and transformative strategies that are driving AI-led innovations.

The show was not just about gaining insights; it also featured an engaging networking cocktail and dinner. Attendees had the opportunity to connect, share ideas, and foster new collaborations in a relaxed and social atmosphere.

With a combination of enlightening takeaways, actionable insights, and meaningful connections, the World AI Show once again cemented its reputation as a leading platform for accelerating AI-driven business growth and innovation in an ever-evolving world.

In Today's Data Driven AIML World, How Digital Transformation has Changed the Governance and its Impact on Digital Economy

KEYNOTE SESSION

Sumnesh Joshi

Deputy Director General,
Ministry of Communication,
Government of India

Sumnesh Joshi's keynote presentation delved into the transformative role of AI in the digital economy, highlighting how data-driven governance is shaping the future. He emphasized the integration of AI and machine learning into governmental frameworks to boost transparency and efficiency. His insightful presentation provided the perfect foundation for the summit, focusing on the impact of digital transformation on governance and its contribution to India's evolving digital economy.

PANEL DISCUSSION

Leadership Strategies for Driving Successful AI Transformation

- Leadership in AI Transformation: Panelists discussed key strategies for fostering an innovative culture and aligning AI goals with business objectives.
- Building AI Readiness: Emphasis was placed on investing in talent, infrastructure, and best practices for creating an AI-adaptive organization.
- Sustaining AI Success: Leaders shared insights on effectively championing AI initiatives to drive long-term business success.

TECH TALK

SUJATHA S IYER

Head of AI Security
ManageEngine

Sujatha S Iyer, Head of AI Security at ManageEngine, opened the session with a deep dive into the AI Maturity in IT. She discussed the transition of AI from back-office operations to boardroom decision-making, underlining how organizations can enhance their digital maturity through contextual intelligence and real-time AI applications.

AI Innovation in Action: Accelerating Efficiency Through Automation

TECH TALK

SHVETAL DESAI

Co-Founder
Nividous

Shvetal Desai, Co-Founder of Nividous, led an insightful tech talk on "AI Innovation in Action," demonstrating how AI-driven automation is reshaping business efficiency. Desai highlighted real-world applications where AI, integrated with RPA and low-code process automation, is driving measurable improvements in operational agility and fostering innovation across modern enterprises. The session provided the audience with concrete examples of technology's transformative role in elevating business outcomes.

PANEL DISCUSSION

How AI Transforms Business Operations and Enhances Competitive Advantage

- AI-Driven Business Processes: Panelists explored AI's role in enhancing daily operations through automation and efficient data processing.
- Ethical AI in Decision-Making: Emphasis on the importance of accountability and ethical considerations in AI-driven decisions to maintain trust.
- Complementing Human Skills: Discussion on AI's supportive role in augmenting human abilities, predicting trends, and optimizing workflows.
- Blueprint for Human-Centric AI Integration: Insights offered on integrating AI in a way that balances technology with human touch for competitive advantage.

NOTABLE QUOTES

> This event was flawlessly organized, providing a fantastic platform to connect with peers, colleagues, and industry leaders. The panel discussions were particularly engaging and interactive, sparking meaningful insights and dialogues on industry challenges and opportunities.

Sumnesh Joshi
Deputy Director General,
Ministry of Communication
Government of India

> AI has evolved from back-office support to becoming a boardroom agenda. Organizations need to embrace digital and AI maturity to stay ahead, leveraging contextual intelligence to drive strategic innovation

Sujatha S Iyer
Head of AI Security,
ManageEngine

> In today's fast-paced world, AI-driven automation is not a choice but a necessity. By integrating AI, RPA, and low-code platforms, businesses can unlock unprecedented efficiency, driving innovation and gaining a strategic edge.

Shvetal Desai
Co-Founder,
Nividous

> The energy at today's event was incredible! It was fantastic to see such a tech-savvy crowd, eager to explore new products and innovations. The diversity of products exhibited was truly impressive, making this event an outstanding experience

Mehak Mathur
Marketing Manager,
