Summit Recap

The 24th edition of World Blockchain Summit – Dubai 2023 was an amazing event that brought together over 2,000 global blockchain, crypto, and web3 industry experts under one roof. This summit was all about fostering mutual collaborations and business opportunities across Asia.

The summit was a gathering of the best and brightest minds in the business, including elite leaders, solution providers, blockchain and crypto experts, and investors from all corners of the world. Together, they engaged in enlightening sessions discussing the latest trends and most pressing questions in the industry.

Over the course of two days, more than 100 blockchain solution providers, crypto projects, sponsors, and community partners showcased their offerings and connected with qualified investors, buyers, and other stakeholders. This just goes to show how resilient the regional blockchain ecosystem truly is!

Aside from all the networking and showcasing, the summit was jam-packed with inspiring keynotes, pitch competitions, panel discussions, investor meet-ups, project showcases, and real-life industry use-cases. There were also plenty of formal and informal opportunities to connect with like-minded individuals.

One of the highlights of the event was the Startup Grand Slam Pitch Competition, which was both exciting and intriguing. The coveted award for best startup went to String3, which is a unique and pioneering public blockchain that stands out from its peers with its advanced core features.

Overall, the 24th edition of World Blockchain Summit – Dubai 2023 was a massive success, with attendees leaving feeling inspired and motivated to take their businesses to the next level.

World Blockchain Summit provides the best delegates, speakers, and organization from A to Z. I come to learn from my delegates as attendees learn. So the event is amazing.

KEVIN SOLTANI
CEO, GIMA Group

This is the right platform to let people know what exactly we are doing. Happy to collaborate because 2023 is not part of competitions. It's the year of collaboration.

NORDEK

RAAJESSH KASHYAP
